* This index provides an updated classification of articles in the *Journal of College and University Law*. The subject matter headings are common to the *Journal of College and University Law*, the *College Law Digest* and Exchange of Legal Information Collection. The index allows quick access to materials on nearly all categories of legal questions arising on campus. By necessity, complex matters are cross-referenced under multiple headings to facilitate information location.

This index is a "rolling" index: it contains only articles published in the last ten years. For references of articles published before 1983, see Volume 18, page page 621, Volume 17, page 567, and Volume 16, page 733.
